

FROM YOUR COLLECTION SERVICE Small Claims Service (SCS)

Printing Industries Association Collection Service, Inc. is constantly striving to improve the services offered to our members.

We are now pleased to offer you a SMALL CLAIMS COURT service, "SCS". We will now facilitate the filing of your claim, to enable you to follow through to enforce collection of claims too small to warrant the more expensive cost of Superior Court actions. All you need do is go to the hearing on the assigned date to prove your claim.

And if they still don't pay after the judgment is entered, we can also help you with the filing of papers with the Sheriff for an execution.

PIA realizes there are some small claims where the non-paying customer is counting on your not suing because of the amount due, as well as the expense of taking them to court using an attorney. Those customers will many times pay the account down to a figure they assume is too small for you to pursue, and ignore your further efforts to collect.

And there are those small walk-in customers who issue a bad check, again believing you will fail to follow through. A Small Claims action may be all that you need to collect.

We at PIACS believe "SCS" is the answer. If we are collecting the account, you pay only the costs, plus our contingent collection fee. However, if you want only direct court action, we do charge a small fee for our services, over and above the costs.

Of course, we at PIACS will always accept any of your accounts for collection only.

Please feel free to call us at 323-728-9500, extension 261, should you have any questions.
